

# HPAI Response

## Initial Epidemiological (Epi) Interview

May 28, 2024

Your participation is vital and will help APHIS understand the occurrence and extent of HPAI detections in poultry. APHIS will safeguard study data as Confidential Business Information (CBI), as defined in the U.S. Code of Federal Regulations (CFR) 19 CFR 201.6, and we will utilize exemption 4 for any Freedom of Information Act (FOIA) (5 U.S. Code 552) requests for survey information associated with this study. Response is voluntary and you may discontinue participation at any time.

### Instructions

We are asking you to fill out this survey to provide information on daily farm activities, facility and premises practices, deliveries to the premises, and sick poultry. The purpose of this survey is to better understand the health syndrome in poultry and to explore potential risk factors for infections in poultry. Any reports from this study will combine the data from all participants. The results of this survey will be summarized to develop hypotheses and to identify specific topics for future follow-up studies.

## Section B – Flock Information

1. In the questionnaire, we frequently ask questions about a **28-day reference period**. Questions regarding the **“28-day reference period”** refer to the **28 days prior to the date that clinical signs were first observed** on the premises.

a. Today's date (mm/dd/yyyy): \_\_\_\_\_ p0001

b. Date first clinical signs observed (mm/dd/yyyy): \_\_\_\_\_ p0002

c. Date 28-days **before** first clinical signs observed (mm/dd/yyyy): . \_\_\_\_\_ p0003

**All questions that ask about the “28-day reference period” refer to the dates between b. and c. above.**

2. Please provide a brief description of clinical signs: p0004 \_\_\_\_\_

3. What is the baseline mortality rate (average number of dead birds/bird population prior to onset of clinical signs)? ..... p0005 \_\_\_\_\_ #

4. What is the mortality rate on the day of initial sampling? ..... p0006 \_\_\_\_\_ #

5. Please provide the dates and results of any avian influenza (AI) test submitted during the **28-day reference period** (indicate type of test):

| Date            | Results      | Test Type    |
|-----------------|--------------|--------------|
| a. _____ p0007a | _____ p0007b | _____ p0007c |
| b. _____ p0008a | _____ p0008b | _____ p0008c |
| c. _____ p0009a | _____ p0009b | _____ p0009c |

6. Please complete the following table for houses with sick poultry:

| House ID     | Type of birds | Number of birds today | Number of birds placed | Age of birds (weeks) | Ventilation type | Date of onset of clinical signs | Location in house where clinical signs were first observed |
