

HPAI Response

Initial Epidemiological (Epi) Interview

May 28, 2024

Your participation is vital and will help APHIS understand the occurrence and extent of HPAI detections in poultry. APHIS will safeguard study data as Confidential Business Information (CBI), as defined in the U.S. Code of Federal Regulations (CFR) 19 CFR 201.6, and we will utilize exemption 4 for any Freedom of Information Act (FOIA) (5 U.S. Code 552) requests for survey information associated with this study. Response is voluntary and you may discontinue participation at any time.

Instructions

We are asking you to fill out this survey to provide information on daily farm activities, facility and premises practices, deliveries to the premises, and sick poultry. The purpose of this survey is to better understand the health syndrome in poultry and to explore potential risk factors for infections in poultry. Any reports from this study will combine the data from all participants. The results of this survey will be summarized to develop hypotheses and to identify specific topics for future follow-up studies.

Section B – Flock Information

1. In the questionnaire, we frequently ask questions about a **28-day reference period**. Questions regarding the **“28-day reference period”** refer to the **28 days prior to the date that clinical signs were first observed** on the premises.

- 08/20/2026
p0001
- 08/18/2026
p0002
- 07/21/2026
p0003
- a. Today's date (mm/dd/yyyy): _____
- b. Date first clinical signs observed (mm/dd/yyyy): _____
- c. Date 28-days **before** first clinical signs observed (mm/dd/yyyy): _____

All questions that ask about the “28-day reference period” refer to the dates between b. and c. above.

2. Please provide a brief description of clinical signs: p0004 _____
Synthetic mild respiratory signs
3. What is the baseline mortality rate (average number of dead birds/bird population prior to onset of clinical signs)? p0005 12 #
4. What is the mortality rate on the day of initial sampling? p0006 37 #
5. Please provide the dates and results of any avian influenza (AI) test submitted during the **28-day reference period** (indicate type of test):

	Date	Results	Test Type
a.	<u>08/03/2026</u> p0007a	<u>NEG</u> p0007b	<u>ELISA</u> p0007c
